Removing ³ filter driver during any of these operations can cause scalding or injury. 11 HeadingUsing the Continuous Control Panel Once the espresso machine is On and heated, so the light on the "Powerâ" button is red and the lights on «manual», simple and double espresso buttons show a constant green light, the coffee maker can use the program function. Note: Before turning on the espresso machine, make sure that vapor control dials and hot water are in the OFF position. Note: For optimum results Sunbeam recommends using these filters with this espresso machine. The coffee machine only has to press the unique espresso button once to start and the liquid espresso pouring will stop automatically. The cream must be dark golden color. Note: When using simple espresso operation, you can stop the espresso pour at any time by pressing the single or double espresso operating buttons. Ã ¢ Ã ¢ Do not use your appliance with an extension cable unless this cable has been checked and tested by a qualified technician or service person. Inspired by the heavy team that is located in restaurants, cafés and bars, the Sunbeam CafÃƒÂ © SeriesãâŠ is built to last. 2 Congratulations for the purchase of your Sunbeam CafÃƒÂ © SeriesÃ Â® Espresso Machine. Today, this Global Company does the following: Heating of patios Hot water systems Saunas Water purification Microwave Ceiling Fans Westinghouse Televisions Westinghouse Small Electrodomers Westinghouse Westing Bulbs Decorative, Solar and LED Interior & Exterior Lighting Westinghouse Generators WestingHouse Planter washing machines and tools Westinghouse Industrial Batteries Westinghouse Westinghouse is a global company, SP from North America to Latin America, Europe, China, India, Australia and Asia Pacific. â € ¢ For additional protection, Sunbeam recommends the use of a residual current device (RCD) with a trigger current not exceeding 30mA in the The electric that supplies energy to its electrodomers. The lights on the buttons «Powerâ» and double espresso will remain on. Lights lights. the buttons Ã¢ Â Â MANUALÃ¢ Â single and double espresso also show a constant green light. Another characteristic of the espresso machine is the ³ progressive preinfussis. Â¢ Â Â ¢ always disconnect the socket from the power outlet before cleaning the espresso machine or if there is any problem during the manufacturing process of the ³. Once the espresso machine is turned on and heated, the light above the ³ of Â Ã¢ Â POWERÃ¢ Â is red and the lights above the Ã¢ Â MANUALÃ¢ Â the single and double espresso buttons display a constant green light, the coffee machine can use the unique espresso operation³. The Sunbeam CafÃ Ã© SeriesÃ® offers superior quality, style and performance capturing the essence of commercial cooking. The Espresso Machine Ã© SeriesÃ® is designed with quality die-cast metal components ³ includes many features that make producing delicious espressos at home easy. Double-floor filters or similar designs are used in most of the domesticated espresso machines. Control Panel An easy-to-use control panel provides the option ³ manual operation ³ use the lengths of programmed espresso spill. Remove holding the plug - do not pull the cord. Measuring spoon ³ n 600ml cleaning disk jug Characteristics of your CafÃ Ã© SeriesÃ Â® Espresso Machine Twin Pump and Twin Thermoblock Ã¢ Â TPTÃ¢ Â Â Â Â¢ System The machine is equipped with a 15 BAR pump for the espresso function, delivering the necessary ³ for a complete extracciÃÃÃÃ, sÃÃ © lidos de cafÃ© and aroma. Important: Once the manual operation is activated³ before the express spill begins the function of pre-infusion³ releasing three short³pressure presses of gradual water onto the coffee cake. The pre-infusion³n gradually releases the water ³ before soaking the coffee beans before applying the full water ³. Note: When the You have activated the double espresso operation, the lights above the buttons Ã ¢ â € Manual â € ™ and a single espresso will turn off. The programmed pour espresso is adjusted in per cup while the Program function allows users to personalise and save their own espresso volumes. Once the espresso machine is switched on and heated, so the light above the ¢ÂÂÂPOWER¢ÃÂÂ button is red and the lights above the ¢ÂÂÂMANUAL¢ÂÂÂ, single and double espresso buttons show a constant green light, the coffee maker is able to use the double espresso operation. ¢ÂÂ¢ÃDo not operate without water in reservoir. MORE FROM QUESTIONSANSWERED.NET Contents Sunbeam's Safety Precautions 2 About espresso coffee 3 Features of your CafÃ©Â SeriesÃ®Â Espresso Machine 4 Using the control panel 10 Reference guide to using your espresso machine 13 Programming your espresso machine 20 Preparing your espresso machine before use 22 Guide to the perfect espresso 23 Guide to milk texturing 25 Using the hot water dispenser 26 Espresso recipes 27 Care and cleaning 29 Cleaning the group head 30 Descaling 32 Advanced programming options 34 Important instructions ¢ÃÂÂ retain for future use. The Dual-Floor Filter Baskets (one and two cup) are designed to be used with preground coffee that is typically available at supermarkets and delicatessens. It measures the pressure or resistance created by water being pumped through the tamped coffee grinds in the group handle. The twin pumps enables the coffee maker to deliver instant steam for texturing milk and at the same time produce a serve of espresso just like a commercial machine. These elements help contribute to the preparation of an espresso serve, as it allows the coffee maker to pack the necessary amount of coffee grinds, which then expand firmly and evenly onto the shower screen. The coffee maker simply needs to press to the ¢ÂÂÂMANUAL¢ÂÂÂ button once to start the pour and again to stop. This combined with advanced technology and functional design, guarantee the performance, that each product will surpass expectations. Features of your CafÃ©Â SeriesÃ®Â Espresso Machine continued Filter Baskets With the espresso machine there are two different sets of filter baskets, standard filter baskets (one and two cup) and DualFloor filter baskets (one and two cup). Ã ¢ Ã ¢ Ã ¢ The temperature of the accessible surfaces can be high when the apparatus is functioning. The 3-liter 3-liter water deposit The water deposit is equipped with an anti-calc filter and the hits for easy filling. Therefore, we recommend a crumbling grinder, such as the grinder of the seriesÃ® (CODE EM0480) to ensure that it has complete control of the particle size and ensure a consistent grinding. The 360 commercial meeting allows the vapor rod to move to the ideal position. Once the espresso machine is turned on and heated, so light on the "Power" button is red and lights on the "manual), double and double espresso buttons show a constant green light , the coffee maker is able to use the operating of the manual 10. Hot water control dial Hot water mark dispensates a controlled flow of hot water. Observe the maximum filling volume is 3 liters. TPTTÃ, "Ã ¢ System Ã ¢ Ã ¢ â, ¬ "Simultaneous use faithful to commercial use, the TPTT system" Â ¢ has twin twin pumps and thermoblocks, this allows the cafe manufacturer to texture milk and pour an espresso simultaneously. In this situation, the hot water is in contact with the affiliations of café for a long time, creating a burned and bitter spresso assert. Ã ¢ â, Ã ¢ Do not remove the filter handle during the espresso espresso flow or water flow as the unit is under pressure. We hope you enjoy your new espresso machine and if you need help, do not hesitate to contact Sunbeam's direct cail line at 1300 881 861. Unique espresso The unique expression function eliminates conjectures and It is scheduled for 30 ml of liquid espresso . For ease of use, the wand has a 360 âA° commercial articulation. In addition, integrated into the two rear feet are the rollers, these allow the user to effortlessly move the "Great when it comes to cleaning below. Features of your CafÃƒÂ © SeriesÃ Â® Espresso Machine Warming Plate The large warming plate effectively pretails the glasses helping to preserve the true essential characteristics of the espresso â € "sweet, rich flavor and aroma. There is also information on how to connect with a customer service representative at WestingHouseElectronics.com/Support.WestingHouse solar lighting manual User manual Libralecavaya to WestingHouseSolarLights.com to get a library of solar decoration lights, spotlights, road headlights , Low tension lights and safety products. (including children) with reduced physical, sensory or mental capacity, or without experience and knowledge, unless a person responsible for their safety has given them supervision or instruction on the use of the device. To activate the function of the program, the coffee machine only has to press the Á «program. Milk, Barista CafÃ © and spoon buffer to measure the café. This occurs when the water passes too quickly through the milled coffee mills and is an indication that the ground needs to be thinner or the filter basket has been subcome. â € ¢ Do not operate any electrical apparatus with a cable damaged or after the apparatus has been damaged in some way. Tip: We recommend using the unique cup filter when using the programmed unique espresso operation. Commercial size Group head and group handle The group head, group handle and filters are designed according to the commercial specifications using brass and stainless steel components. While the needle is within the target area on the meter indicates that an espresso service has been made from us us y ollirdal ed amrof anu ne oÃcav la odasavne odunem a nos odilom-erp ©Ãfac ed sopit sotsE It states that they are a "â € ~ Universal Grind" that can be used throughout a variety of coffee makers. Note: The coffee maker does not need to press the button of an express again to finish the pour as the expresse machine will stop automatically. Note: Contact Sunbeam at 1300 881 861 for spare filters (part code: EM69101). Inevitably, â € you will need a manual for a WestingHouse product. Here, "how to find the right one. Westinghouse Makeswestinghouse Electric Corporation has a long history, founded in 1846 as air brake inventors, then in 1865 the rotary steam engine, according to Westinghouse.com. Standard filter baskets (one and two cups) are of the same specification that is used with commercial café magnifications and are less tolerant to the quality of the café grain. Ã ¢ â € ¢ Do not place an apparatus on or near a hot gas flame, the electrical element or in a heated oven. Refine a range of electrodomers designed to create authentic food and beverages at home. Ã ¢ â € ¢ Do not let the feeding cable from an apparatus hang over the edge of a table or table or touch any hot surface. Note: When the coffee maker has activated the program function, the light on the Ã ¢ â € ¢ â € ¢ â € ¢ button will show a constant red light and light on the button Ã ¢ â € It will turn off. The light on the Ã ¢ â € PowerÃ â € ¢ â € ™ â € ™ â € ™ Â ™ will illuminate green and start blinking; This is to indicate that your espresso machine is on and is heating up. Customer care can help you from there. If you want a specific telephone number of Westinghouse for several products, go to Westinghouse.com/customer-care and â € you will find specific phone numbers for several products , from heating and refrigeration, hot water systems, fans up to security systems, lighting fixtures³ bulbs and digital inverters. Espresso Gage Espresso gage is an indicator of the quality of espresso pour and should be used as a guÃa. In Addition The lights on the single and double espresso buttons remain on. If you need to contact Westinghouse, there is a FAQ section and a call to a call, which is 844-551-0680. Westinghouse Device Manual, find the user manuals on the line for your specific Westinghouse Small or Large device, simply search the user manual by typing in the model number of your device. Power Press The botÃ ³ on "Ports" once to turn on the espresso machine. â¢ Always use your device from a voltage socket (A.C. only) marked on the device. Note: when using the double express operation³ you can stop the spill of espresso at any time by pressing the operation buttons ³ "MANUAL" MANUAL ", DOUBLE, OR DOUBLE ESPRESSO. Contact Westinghouse toll-free at 866-442-7873 to express your concern ³ a specific product. They have two floors, looking at the filter basket, you can see many small holes and when you hold up to the light and look towards the bottom of the filter see only one hole. For example, go to this site to find a manual for one of Westinghouse's most popular remote start generators: WestingsouseOutdoorPower.com for WGEN7500 Generator Manual portUtil. Westinghouse TV ManualSwestinghouse has PDF downloads of user manuals for many of its TVs, HDTVs, monitors and accessories. Tip: we recommend using the double cup filter when using the ³ double espresso operation. Note: See the section ³ "Programming your espresso machine" for easy-to-follow instructions. Although that doesn't always work in the United States, it's best to call the company directly for help finding the user manual. The size of the partÃ¢ â tumpersal moler' is too thick to make the quality espresso, .otarapa .otarapa nu ejed acnuN ¢Â ¬â ¢Ã .oro ed amerc nu razitnarag arap litus n³Ãicaeria anu aerc euq odiuqÃl osserpse ed ojulf le riunimsid la otse rasnepmoc arap sada±Ãesid n¡Ãtse laud osip ed ortlif ed satsanac sal ,otnat ol while in use. The independent thermoblock heating systems lined with stainless steel, heat the water ensuring that the precise temperature is reached for each function by removing the waiting time and reducing the temperature fluctuations. Note: The coffee maker does not need to press the double espresso button again to finish the pour as the espresso machine will automatically stop. The lights above the Ã ¢ â € ¢ â € ¢ â € ¢ â € ¢ â € ¢ Manual â € ¢ â € â € ¢ Manual will remain on. Ã ¢ â € ¢ Do not place on any other apparatus. Dripping tray and extra barbebles The high-capacity molten metal drip tray is lined with plastic, avoiding the spot of the espresso oils, it is light for easy elimination and is designed without traps Dirt for a simple cleaning cleaning. Ã ¢ â € ¢ The devices are not intended to be operated by means of an external timer or separate remote control system. Westinghouse, an important global corporation that manufactures electronics, illumination and energy supplies, offers both consumers and companies a huge variety of products and services. An anti-Calc water filter reduces impurities staining the flavor and smell of water, improving the taste and aroma of the elaborated espresso. If you have any questions about the performance and use of your device, visit www.sunbeam.com.au or contact the Sunbeam Consumer Service Line. It is a gradual increase in water pressure pre-wet the café cake before applying the complete water pressure. Mixtures without engagement stainless steel, brass and melted alloy characterize the range. Program The program's function allows the coffee maker and save your own espresso pour settings. The pour is fast and light color and the resulting cream is thin with a creamy clear brown color. Ã ¢ â € ¢ Do not immerse the in water or any other liquid unless recommended.
